

# XXL TRANSPORT BOX

Being robust and airtight, this box is ideal to protect and transport bulky gear.

## GEAR TRANSPORT

## DESCRIPTION

Are you looking for a sturdy and airtight transport box? Good news, you can buy the TRANSFORMEUR box separately.

It is equipped with 2 side handles with rubber grip for more comfort, wheels and a telescopic handle - this resistant box offers superior protection to your gear. It is IP67 and ATA 300 certified, as well as military approved, you can be sure that water, dust and impacts will be a problem of the past.

If you're flying, your gear will be fine in the hold: the XXL TRANSPORT BOX is also fitted with an automatic depressurisation valve.
