

VIPÈRE

Adjustable attaching sling used for rigging, that can be adjusted from thin to large trees.

ATTACHING SLING

DESCRIPTION

The VIPÈRE is an adjustable attaching sling that can be used with a clove hitch or figure-eight knot. It can also be used as a pulley connection.

Its design gives it the ability to adapt to different trunk diameters:

- 0.2 to .95 m - 3 m version (9.8 ft)
- 0.2 to 1.5 m - 5 m version (16.4 ft)
- 0.2 to 2.2 m - 7 m version (23 ft)

TECHNICAL INFORMATION

Machinery Directive	2006/42/CE
Material	hollow braid 100 % polyurethane coated polyester
Diameter	20 mm (0.78 in) - 20 strands
Colour	yellow-red-blue

Elongation	6.5 % elongation at 50 % of MBS
Weight of the braid	320 g/m (11.28 oz/ft)
MBS	80 kN / WLL, coef. 7: 11 kN
